

Zachariah Norrington

DOCUMENTARY | PHOTOGRAPHY | FILMMAKER

Profile

Digital Creator with 7+ years in media production and photography, adept at working on location or in a fast-moving studio. With experience collaborating as a team or multi-tasking on my own under pressure. Demonstrated skills as a cinematographer and junior producer and moving towards a directing position. Proven expertise in researching and writing scripts, securing locations, and planning/scheduling film shoots. Strong conceptual skills with a keen eye for what makes the shot. Excellent editing and camera skills. After starting my career in London - then moved to Athens - where I picked up my style of cinematography and an eye for developing unique doc stories. I then earned my Documentary Media Studies Certificate at The New School in New York; I hope to continue my journey of expressing people's mental struggles through cinematic visuals.
